Community Health Promotion Summit

“...the highest attainable standard of health as a fundamental right of every human being.”

## WHO Constitution

- Achieving the right to health is closely related to that of other human rights and includes the rights to:
  - Food
  - Housing
  - Work
  - Education
  - Non-discrimination
  - Access to information
- The right to health includes freedoms and entitlements:
  - Freedom to control one's health and body and to be free from interference
  - Entitlements that provide health protections and equal opportunity to enjoy the highest attainable level of health

# What is a Healthy Community?

Without health life is not life.

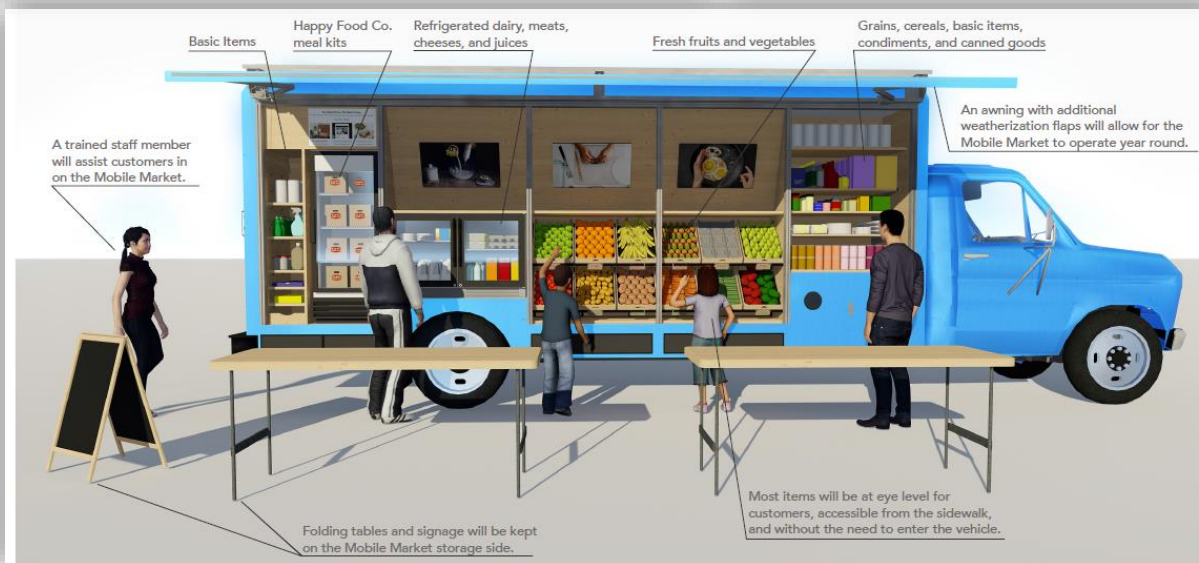

It is only a state of languor and suffering.  
An image of death.

As a single footstep will  
not make a path on the  
earth, so a single thought  
will not make a pathway  
in the mind. To make a  
deep physical path, we  
walk again and again.
